## Dimensions: (mm)

## Key Selling Points:

- Integrate into the work surface for a flush fit, discreet and convenient wireless charging solution.
- Simply sit any Qi enabled mobile device on top of the charger. If your device does not have Qi built in an additional interface is required - receiver phone case options.
- Removes need for power cords.
- Charging distance 0-6mm.
- Two finishes available; black and white.
- The charger must be fitted with a 25mm clearance from the edge of the work surface. The maximum worktop depth this item is suitable for is 60mm.
- The lip is only 1mm deep for a completely flush fit.
- Input: DC 5V - 1.5A. Output: Dc 5V - 1A.
